Students who use the lessons say:

"Having immediate feedback with an explanation is very valuable."

"They are an excellent supplement to class lectures."

"Extremely useful in testing knowledge of the material."

"Great way to reinforce what you have read and to apply it."

"Great review and practice questions."

". . . a very effective tool for understanding difficult concepts."

"Helpful self-check to see what you know and what your weaknesses are."

"Helps with issue spotting in preparation for exams."

". . . helps in understanding how concepts and rules weave together as you work through a hypothetical."

Access Options:

- ◆ Run the lessons directly from the CALI Website. Go to <http://www.cali.org/lessons>. You will need to enter your school's authorization code when registering on the CALI site. It is available from your school's CALI contact (www.cali.org/contacts).
- ◆ The CALI lessons may be installed on computers at your school. Check with a librarian or the tech staff for the location of the computers with the CALI lessons.
